

SUBJECT: DROPS SWEEPS OF MULTIPLE ASSETS
OUR TEAM: 3-PERSON

PROJECT OVERVIEW:

AquaTerra successfully provided proactive DROPS (dropped object prevention scheme) sweeps and remedial action plans across a number of installations.

KEY CHALLENGES:

- Fragmented historic DROPS reporting from multiple suppliers
- No centralised reporting, disjointed follow-up and lessons learned
- No standardised or concise reporting or categorisation

TURNKEY OFFERING:

- Carried out Potential Dropped Object (PDO) sweep
- Use of ATEX tablet to sweep and document
- Safe removal and repair of PDO's
- Provision of asset specific DROPS tracker
- 'Find and Fix' strategy for all PDO's, effected immediately where possible
- End of visit wash-up meetings, 'rogues gallery' and outstanding repairs
- Development of AquaTerra Drops Kit to improve safety of removal/ repairs at height

AGILE APPROACH:

- Flexibility of small multi-disciplined and self-sufficient team
- Adoption of a 'find and fix' strategy to conduct immediate remedial where possible
- Provision of an asset specific risk-based tracker with simple traffic light status identification

ADDED VALUE:

- Clear concise DROPS action tracker
- PDO's removed, minor repairs effected, major repairs identified and logged
- Continuity of personnel to complete follow-up activities
