

SUBJECT: HEAT SHIELD REPLACEMENT
OUR TEAM: 14-PERSON

PROJECT OVERVIEW:

Provision of a competent, experienced and multi-disciplined team to safely deliver the installation of heat shield panels to a drilling derrick and crane on a Jack-Up.

KEY CHALLENGES:

- Use of two cranes in tandem
- On-site fabrication and modification of panels
- High-risk potential from destructing large sections

TURNKEY OFFERING:

- Surveying
- LOLER planning including detailed lift planning and management control of lifts
- Rigging and lifting activities
- AP for moving loads
- Provision of rigging lofts
- Use of bespoke lifting equipment
- Sub-contractor management, including specialist cranes

AGILE APPROACH:

- Training all team members in support functions for complete flexibility and rotation of team at worksite
- Use of multi-disciplined personnel covering all required skills reduced bed space demands

ADDED VALUE:

- Project completed incident free and within budget and schedule
